

## TYPE FD STUD CONNECTORS

For Use On STUD TO PAD

High copper alloy stud connector allows bolting cable and tubing terminals to equipment studs. Hex head captured bolts provide one-wrench installation. One pad contact surface is on centerline of stud. Pad is finished on both sides. All pads are four hole NEMA drilled.

Material: Copper Alloy

Hardware: DURIUM™ Silicon Bronze

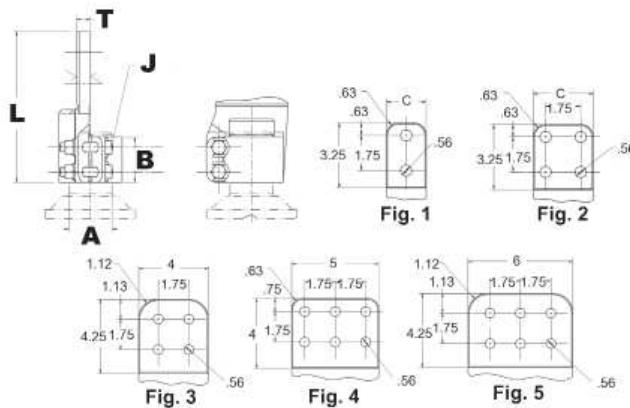

Notes :

- Plated versions: add the required suffix to the catalog number. -TN for regular tin plating
- Pad is finished on both sides
- Amperage rating given is for indoor conditions
- Please contact factory for other sizes, combinations and availability
- One-wrench installation

**154kV.**
